Aims and Scope

Nuclear Physics A covers the domain of general nuclear physics together with intermediate energy and heavy-ion physics, and astrophysics. The emphasis is on original research papers. A number of carefully selected and reviewed conference proceedings are published as an integral part of the journal.

Abstracted/Indexed in:

Current Contents: Physical, Chemical & Earth Sciences/Physics Briefs.

Subscription Information 1995

Volumes 596–611 are scheduled for publication in 64 issues. Publication frequency: weekly. Subscription prices are available upon request from the Publisher. A combined subscription to *Nuclear Physics A – ISSN 0375-9474* (volumes 596–611), *Nuclear Physics B – ISSN 0550-3213* (volumes 458–482) and *Nuclear Physics B Proceedings Supplements – ISSN 0920-5632* (volumes 45–51) is available at a reduced rate. Subscriptions are accepted on a prepaid basis only and entered on a calendar year basis. Issues are sent by SAL (Surface Air Lifted) mail wherever this service is available. Airmail rates are available on request. Please address all your enquiries regarding orders and subscriptions to:

NUCLEAR PHYSICS A

Journal devoted to the experimental and theoretical study of the fundamental constituents of matter and their interactions

Instructions to Authors – Short Version

(A more detailed version of these instructions is published in the preliminary pages of each volume of the journal)

Submission of papers

Manuscripts should be sent to:

Before acceptance

Nuclear Physics A, Editorial Office
Matrix Building, Science Center WCW
Kruislaan 419, 1098 VA Amsterdam, The Netherlands
Tel.: +31 20 5618161 Fax: +31 20 6654969
e-mail: npa@jnl.nucphys.nl

Original material. Submission of a paper implies that the material has not been published before and that it is not being considered for publication elsewhere. *Referees.* All submitted papers are subject to a refereeing process. Electronic submission of LaTeX files by e-mail is preferred. Hard copy contributions should be sent in triplicate.

Types of paper

Concisely written research papers are welcome. Letter-type contributions and unnecessarily long papers cannot be accepted.

Manuscript preparation

Language. Manuscripts should be written in good English. *Structure.* Please adhere to the following order: Title, Authors, Affiliations, Abstract, PACS codes, Keywords, Main text, Acknowledgements, Appendix, References, Vitae, Figure legends, Tables. *Corresponding author.* Please indicate the corresponding author: full postal address, e-mail address, telephone and fax numbers on the title page. *Abstract.* All papers should have an abstract of no more than 150 words. *PACS classification codes/Keywords.* Please supply us with one or more relevant PACS classification codes and 1–6 keywords of your own choice for indexing purposes. *References.* References to other work should be consecutively numbered in the text using square brackets and listed by number at the end of the article. *Illustrations.* Illustrations should also be submitted in triplicate. One set must be in publishable condition. Figures should be clearly numbered. *Colour.* If judged essential by the Editor figures may be published in colour. The Publisher and the author will each bear part of the extra costs involved. Further information is available from the Publisher.

Copyright transfer

You will be asked to transfer the copyright to the Publisher. This will ensure the widest possible dissemination of scientific information.

Electronic publishing

The Publisher welcomes the receipt of your accepted manuscript as an electronic file (LaTeX). For further information, please refer to the more detailed Instructions to Authors or contact the Publisher at the address below.

Author benefits

No page charge. Publishing in *Nuclear Physics A* is free. *Free offprints.* The corresponding author will receive 50 offprints of the article free of charge. An offprint order form will be supplied for ordering any additional paid offprints. *Discount.* Contributors to Elsevier Science journals are entitled to a 30% discount on all Elsevier books. A coupon will be sent to you. *Contents Alert.* Nuclear Physics A is included in Elsevier's pre-publication service Contents Alert. *Nuclear Physics Electronic.* Nuclear Physics A is included in Nuclear Physics Electronic.

NUCLEAR PHYSICS Electronic

allows for

- retrieval of full-text information
- on-line index-searching
- browsing

Retrieval of full-text information is limited to network addresses which can be linked to subscriptions to Nuclear Physics A or Nuclear Physics B, while *on-line searching* and *browsing* are also available to non-subscribers.

To keep up-to-date with the latest research, it becomes increasingly important to have easy access to quality information at the earliest possible moment.

Launched in 1994, *NUCLEAR PHYSICS Electronic* combines the quality information contained in **Nuclear Physics A** and **Nuclear Physics B** with the speed and ease of use of on-line access:

- *NUCLEAR PHYSICS Electronic* provides access to abstracts and full text papers from the moment these have been accepted for publication in Nuclear Physics A or B.
- Through its search facility, *NUCLEAR PHYSICS Electronic* gives you a quick overview of the contents of both journals since January 1993.
- *NUCLEAR PHYSICS Electronic* keeps you up-to-date: the service provides weekly updates of all accepted papers.
